### Dear, Mr./Mrs,

Thank you for choosing the RICA iSoftloader. We just wanted to take a moment to thank you for your recent purchase. We greatly appreciate your business and the opportunity to assist you.

Your satisfaction is the greatest recognition we could have, so we ask you to take a moment to give us some feedback about your recent purchase. We hope that you will inform us if there is anything we can do to improve our services; we will do everything in our power to meet your needs.

Please contact us if you have any questions or if you would like to make any comments on your purchase. Also, if there is anything we can do to assist you with your purchase, please let us know.

We look forward to working with you again soon.

Sincerely, RICA Engineering

### ENCLOSED EQUIPMENT

You are just a few steps away from programming your car with a genuine RICA performance upgrade. This manual will show you how to tune your car step by step. You can also take a look on our YouTube channel.

Here you can find an instruction video:

www.youtube.com/
watch?v=mgtOnC7CJGc

The RICA iSoftloader package consist of:

- Manual
- CD-ROM
- RICA iSoftloader
- USB cable
- OBD2 cable
- RICA stickers

The picture below shows where the car's OBD2 connector is located. Connect the enclosed OBD2 cable and the RICA isoftloader to this port.

Below you will find a detailed description of how to tune your car with the RICA iSoftloader. It is very important that you perform the tuning exactly as described. Follow the instructions carefully.

### INSTALLING THE ISOFTLOADER SYNC APPLICATION

1. Insert the CD-ROM into your CD drive

or download the installer ( iSoftloader 1 Sync ) from our website: <u>http://rica.nl/SelftuningwithRICAiSoftloaderlandII.html</u>

 Wait for the installer to start automatically (If it doesn`t start automatically choose iSoftloaderSyncSetup.exe)

3. Follow the instructions to complete the installation

# Step 1 Install the Sync application

4. Connect the iSoftloader to your PC to install the correct USB driver

### **IMPORTANT**

This is not necessary for Windows 8 and 10 users with iSoftloader firmware 4.0.2 or higher. If you do not have firmware 4.0.2 or higher please upgrade your iSoftloader on a Win7/vista/XP PC first. Your firmware version can be seen on the iSoftloader display during booting when connected to a USB port

5. When prompted, find the correct USB driver for your Windows version, which can be found on the CD in the folder \ USB Driver

## READ INFORMATION FROM YOUR CAR USING THE ISOFTLOADER

After activating your iSoftloader you will be asked to connect it to your vehicle to obtain some important vehicle information and provide this to RICA Engineering. The iSoftloader Sync application will guide you through this process.

### WARNING

Make sure you turn the ignition key to position II (see picture). For vehicles equipped with a Start/Stop button; press the Start/Stop button for about 3 seconds without pressing the brake or clutch pedal. All dashboard lights will turn on when done correctly.

## Step 3 Read information from your car

# SEND THE CAR INFORMATION TO RICA USING THE SYNC APPLICATION

Now that your iSoftloader is ready for programming your car, simply connect it to the OBD<sub>2</sub> port of your car and follow the on-screen instructions to tune your car!

### TUNE YOUR CAR BY PROGRAMMING IT USING THE ISOFTLOADER

The pictures below show the on-screen instructions from the iSoftloader

# Step 6 Tune your car by programming it

### WHAT'S THE RESULT?

When you tune your car with the RICA iSoftloader the performance of the car improves considerably. The RICA iSoftloader increases the engine's power output and torque over the full range of rpm.

On our website you can find detailed information about the upgrade for your car: www.rica.nl
